global solar distribution

SHOPPING MADE EASY

one-stop shop for every installation

SERVICE

Every customer has an individual contact for all their requests. With our broad service spectrum, our experts are available to advise you before, during and after your purchase. From residential to commercial projects – the Krannich Team can solve almost any problem.

AVAILABILITY

Our portfolio comprises over 5500 articles kept in stock by us on all five continents. The experts in our distribution ensure an unbroken supply chain from the manufacturer to the construction site, thereby guaranteeing maximum availability and reliable delivery.

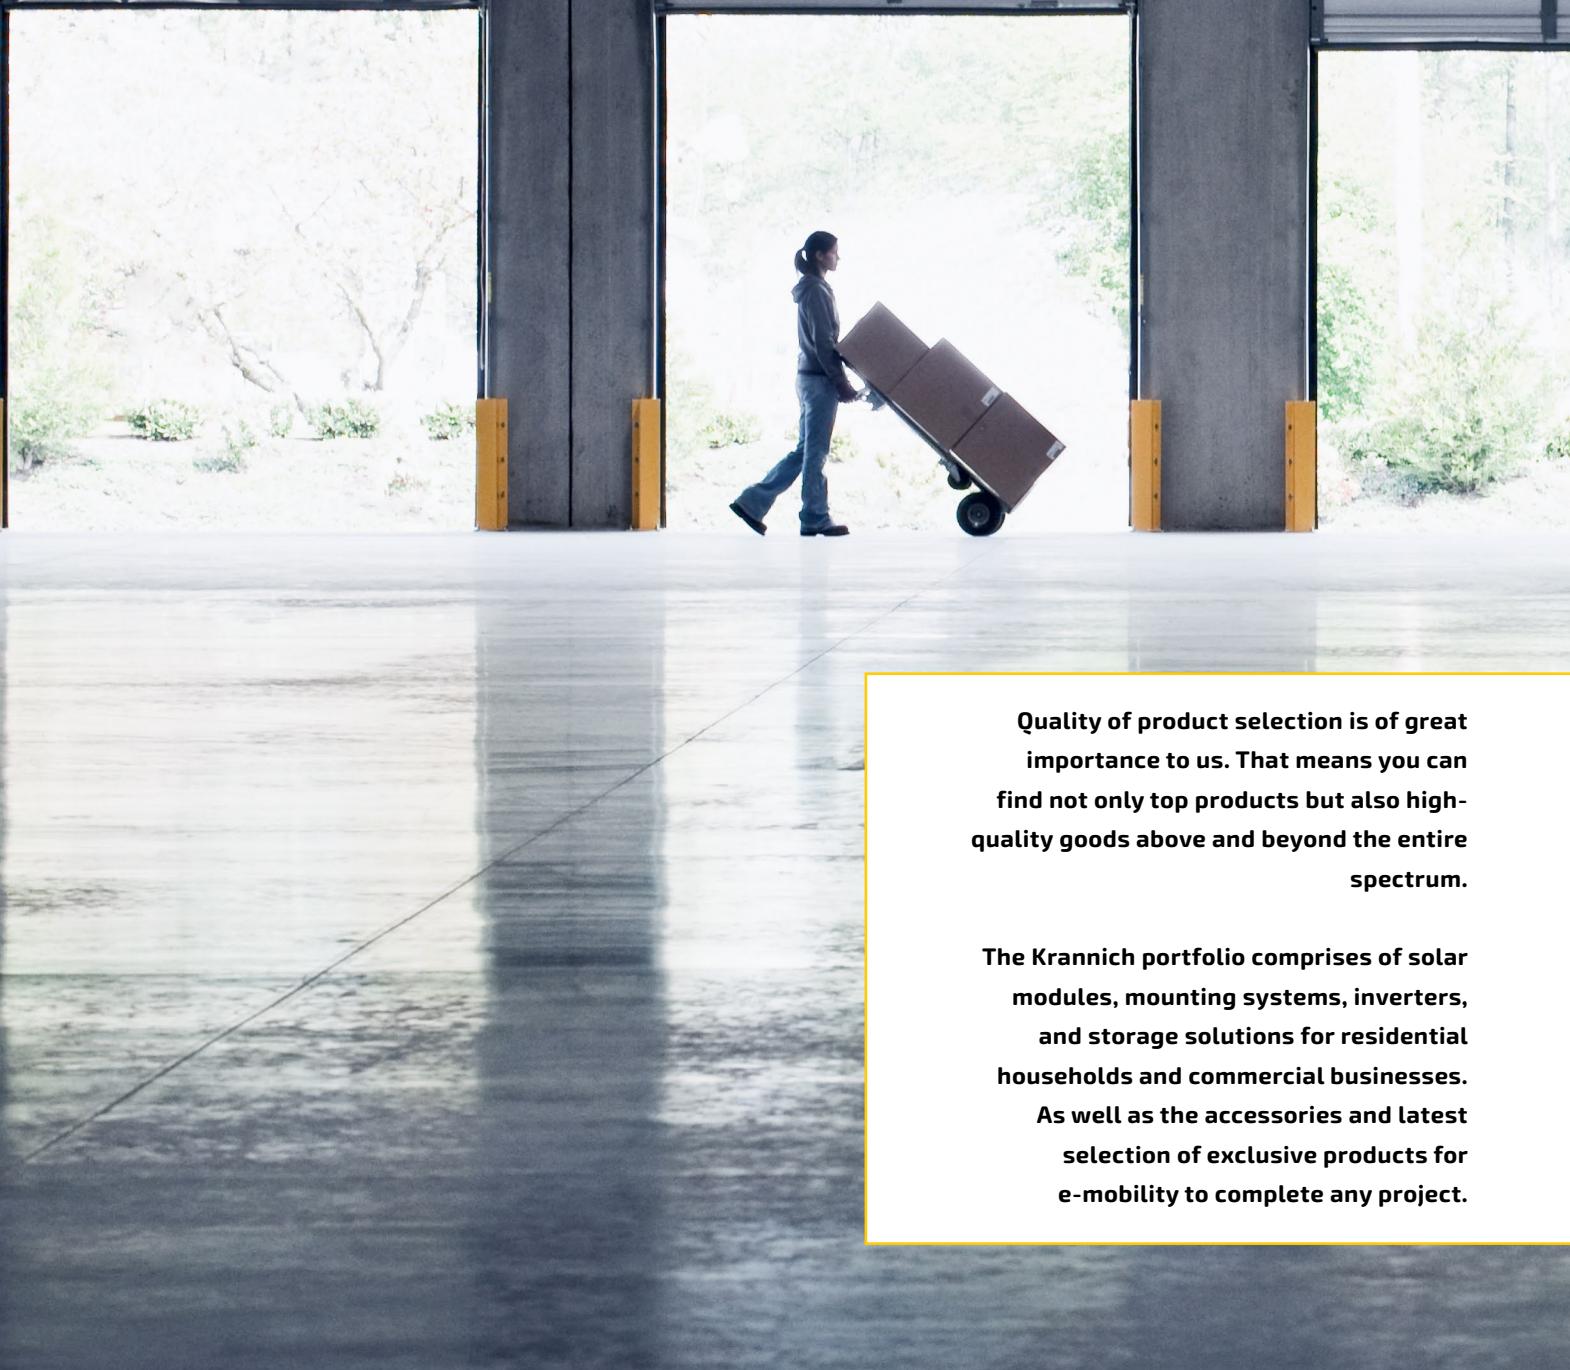

ONLINE-SHOP

The Krannich Online Shop has been developed by experts for experts, offering you access to the entire product range around the clock. With current prices and availabilities, exact delivery dates, extensive technical information for downloading plus exclusive campaign offers – you're always up-to-date.

WIDE RANGE

the right product for any application

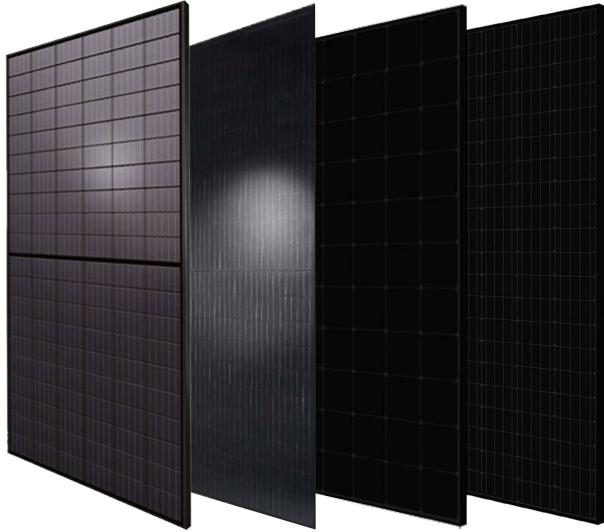

Quality of product selection is of great importance to us. That means you can find not only top products but also high-quality goods above and beyond the entire spectrum.

The Krannich portfolio comprises of solar modules, mounting systems, inverters, and storage solutions for residential households and commercial businesses. As well as the accessories and latest selection of exclusive products for e-mobility to complete any project.

microinverters

APsystems was founded in Silicon Valley in 2009 and is now a global leader in advanced solar microinverter technology. Their microinverters are grid-tied and equipped with intelligent networking and monitoring systems to ensure maximum efficiency, making PV arrays more powerful, smart, bankable, cost effective and safe.
